## W. H. HALL ELECTED A MEMBER OF THE BOARD OF EDUCATION

Mr. George Dodson Leaves City and Resigns From Board of Education —Mr. Hall Succeeds Him On the Board.

The regular monthly meeting of the City Board of Education was held at the High School building on Thursday evening and much important business was transacted.

Probably the most important was the resignation of Mr. George A. Dodson, as a member of the board from the Sixth ward and the election of Mr. W. H. Hall to succeed him. Mr. Dodson has moved to the county and therefore surrenders his seat. He has been a very enthusiastic member of the board, who has been keenly interested in seeing Maysville have the best possible schools. The board in accepting his resignation last night expressed their regret at the loss of such an active member. Mr. Hall, who was selected to succeed Mr. Dodson is very much interested in matters educational and will make a worthy successor.

The last breach in the city's teaching force was filled last night when Mrs. J. B. Ross was elected to teach the sixth grade in the Forest avenue school to fill a vacancy which has existed ever since the schools were opened. Mrs. Ross is an experienced teacher and gave great satisfaction as a member of the High School faculty last year.

In keeping with the salary increase given the teachers of the city schools, the salary of the Trust Officer was increased from \$30 to \$37.50 per month.

## SUNDAY IS RALLY DAY AT PRESBYTERIAN CHURCH

Interesting Program Will Be Rendered By Members of Presbyterian Sunday School on Next Sunday Morning.

Sunday will be Rally Day at the First Presbyterian church. It is hoped that every member of the church and Sunday school will be on hand to make this Sunday, October 3rd, a Grand Rally. Sunday school is no longer "for children only" but is a Bible school needed by adults as much as by children.

The collection will go toward the tuition of a mountain girl at Pikeville and toward giving the Gospel to the immigrants, the heathen in our own country. A few of the Junior pupils will tell something of this work.

Six will be promoted from the Primary department. The orchestra will be on hand to lend inspiration to the music. Every one should want a part in this day and this work. Everybody come.

## GUN USER WAS SEEN IN MAYSVILLE.

The Vanceburg Sun says:

Since our last issue we learn that the shooting of Commodore Politt was caused by a Stevenson boy calling "Pooch" Sartain a vile name, whereupon Sartain knocked him down and he went into the church house crying and that broke up the meeting. Sartain then came down the road and Politt and others followed after when, near Wyatt Cooper's Sartain ordered him to halt or he would shoot, and falling to do so he shot Politt in or near the groin, the ball being removed from behind where it lodged under the skin. Mr. Politt is mending nicely. The Sartain boy made his escape. Blood hounds from Manchester were secured, but they accomplished nothing. J. S. Mavity and E. W. Moore say they saw Sartain in Maysville Friday.

## PROPOSITION MADE TO RIPLEY COUNCIL BY LOCAL LIGHT CO.

Maysville Light Co. Officials Make Proposition to Ripley Council for Lighting Their City by Electricity.

The following is from the Ripley Bee:  
The indications are that our village will at no distant date be supplied with electric current 24 hours in the day by the Maysville Light Plant.

At a called meeting of our City Council last Wednesday evening Messrs. Horace Cochran, Attorney Browning of Maysville and Mr. Weaver, an electrical engineer of Covington, Ky., were here and gave an outline of a contract which the Maysville plant was willing to submit to our Council. After thoroughly discussing the matter, Council asked the Maysville people to submit their proposition in writing.

As we got it the plan was about as follows: The Maysville people are to build a line down the Kentucky side of the river to a point opposite the Ripley pump house, where towers are to be erected on both sides of the river to carry the lines and current of 2,300 volts across, and furnish the power to run the pumps at the water plant, lighting streets, houses and for other purposes. Ripley to guarantee not less than \$7,500, which is about the amount received at present from collections. The current used at the pump house to be at the rate of 4 cents per kilowatt; for lighting and other use at 10 cents per kilowatt. All used over 50,000 kilowatts to be furnished at 6 cents.

The village of Ripley to own the line from low water mark on the Ohio side of the river and to assume all responsibility of the same.

Mr. Branson, an electrical engineer from Cincinnati was also present and he informed Council that he had been at the local plant and saw it running, and said that one-half the power produced at the plant was lost on account of the trees over town interfering with the wires. He was employed by Council to look over the situation here and furnish an estimate of the cost of new plant and of changing to the Maysville plant and submit figures.

## LARGE ATTENDANCE IN ADULT CLASSES EXPECTED.

After the great meeting of the adult Bible classes Wednesday evening it is a sure thing that everyone present on that occasion will watch the standing of the various Bible classes from now on with greater interest than ever before. Sunday is expected to be a great day with the "grown ups" in Sunday school. Let the attendance secretary have a report from every adult class, giving the name of the class and the number present. If your attendance has been too poor to report get a stir on yourselves and move up into live company and see how good it feels to be in line with such a fine crowd of Bible students. There are some good adult classes in our county schools also. Let them report, too. Maysville and Mason county is due for a great Sunday school revival and every school should get into the current at once.

## GROWERS ADOPT CONSTITUTION FOR ORGANIZATION

Newman Advises Against Cut-Out For 1921 and Says It Costs 30 Cents a Pound to Grow Tobacco.

Lexington, Ky., Oct. 1.—With more than 200 representative tobacco growers from counties of Kentucky, Indiana and Ohio present, the district conference of the Burley Tobacco Growers' Association Thursday in session in the court house, adopted the by-laws and charter of the organization virtually as presented.

In an address outlining the purposes of the association Chairman John W. Newman declared that the farmers of Kentucky must take some decisive action looking toward the good of the tobacco industry and that with the proper educational propaganda, conservatism and careful planning, the problems of the planter can be overcome.

There is no doubt, Chairman Newman declared, that there is an over-production of tobacco in Kentucky, but he said that a cut-out of the 1921 crop would be inadvisable as it would injure materially the 1922 crop, and that the cut-out plan generally was a bad one. He said that it costs thirty cents a pound to produce the tobacco crop and declared that while good grades of weed were certain to bring good returns, the markets of Virginia and the Carolinas indicated that a great price problem was faced.

## CITIES SHOW THE GREATEST GROWTH.

Washington, Sept. 30.—Cities are increasing in population seven and a half times as fast as the rural districts, the census bureau disclosed tonight in a compilation of figures covering approximately 85 per cent of the new census. The figures indicated that the completed census would show the majority of the population to be city dwellers.

For the last ten years rural growth was but one-third as great as in the previous decade, but the cities almost maintained their rate of growth, getting five new inhabitants from 1910 to 1920 for each six added during the preceding ten years. All population centers, even the small county hamlets and towns, showed a greater proportionate increase than the purely rural districts. The greater increases, however, were by cities of 10,000 or more inhabitants.

Captain Edw. Fitzgerald, of Covington, Federal Prohibition officer, is in the city today on business.
